

Week 2

Day 1

install P5live offline

cd /Users/stash/Documents/P5LIVE

npm install

npm start

(to end) control + C

control + shift + a

--> to include sound measure thingy

Day 2

missed the morning

How to create buttons and interactions in P5Live

Afternoon

Created ways of drawing and moving with trigonometrie and playing around with different ways of numbers

![P5L_new_001_20260505135727](/Users/stash/Library/CloudStorage/OneDrive-Persönlich/03_DMI/4.

Semester/CO_Creative_Coding/documentation/week_2/P5L_new_001_20260505135727.png)

It looks like the meal from the movie Ratatouille

![151008_1-809601338](/Users/stash/Library/CloudStorage/OneDrive-Persönlich/03_DMI/4.Semester/CO_Creative_Coding/documentation/week_2/151008_1-809601338.jpg)

```
// {"P5LIVE":{"name":"new_001","mod":1777989447376}}
```

```
let number = 5
```

```
let speedX
```

```
function setup() {
```

```

    createCanvas(windowWidth, windowHeight)

}

function draw() {

    let speedX = sin(frameCount *.02)*100 + sin(frameCount *.08)*50
    let speedY = cos(frameCount *.02)*100 + cos(frameCount*.02)* 50

    fill(random (255),random (255),0)
    ellipse (width/2+speedX, height/2 +speedY, 100)

}

```

I tried to play around with the microphone here by letting the sound decide on the movement or also the colours (letting the teacher speak for about 1')

![P5L_talking_star_20260505140522](/Users/stash/Library/CloudStorage/OneDrive-Persönlich/03_DMI/4.

Semester/CO_Creative_Coding/documentation/week_2/P5L_talking_star_20260505140522.png)

```

// {"P5LIVE":{"name":"talking_star","mod":1777989922175}}

let number = 5
let speedX

function setup() {
    createCanvas(windowWidth, windowHeight)

    setupAudio(true) // global vars
    // a5.ease = .075 // set easing
}

function draw() {
    /* audio vars: amp, ampEase, fft, fftEase, waveform, waveformEase */
    updateAudio()

    let speedX = sin(frameCount * .02) * 20 + sin(frameCount * .01) *
ampEase*40
    let speedY = cos(frameCount * .02) * 20 + cos(frameCount * .01) *
ampEase*40

    fill(random(1255), random (255), 255)
    ellipse(width / 2 + speedX, height / 2 + speedY, 100)
}

```

```

}

/*
P5LIVE - Audio
If using outside P5LIVE, include p5live-audio.js
https://cdn.jsdelivr.net/gh/ffd8/P5LIVE/includes/utils/p5live-audio.js
*/

```

We played around with linedrawing

![P5L_new_001_20260505135134](/Users/stash/Library/CloudStorage/OneDrive-Persönlich/03_DMI/4.Semester/CO_Creative_Coding/documentation/week_2/P5L_new_001_20260505135134.png)

```

// {"P5LIVE":{"name":"new_001","mod":1777989094987}}

function setup() {
  createCanvas(windowWidth, windowHeight);
  background(200);
  stroke(0);
  setupAudio(true) // global vars
  // a5.ease = .075 // set easing
}

function draw() {
  /* audio vars: amp, ampEase, fft, fftEase, waveform, waveformEase */
  updateAudio()

  let pen1 = map(sin(frameCount * .075), -1, 1, 50, 10)
  let differentX = map(mouseX, 0, width, 0, width / 2)
  // ellipse(width/2 + cos(frameCount*.025)*200, height/2 +
  sin(frameCount*.025)*200, 100)
  // ellipse(mouseX, height / 2 + sin(frameCount*0.025)*200, 20)
  if(mouseIsPressed) {
    stroke(random(255), 255, random(255));
    strokeWeight(pen1);
    line(prevX, prevY, mouseX, mouseY);
    // ellipse(mouseX,mouseY, pen1, pen1)
    // stroke(255,random (255),random (255))
    // ellipse(mouseX-50, mouseY+50, pen1, pen1)
  }
}

```

```

    prevX = mouseX;
    prevY = mouseY;

}

function keyPressed() {
    if(key == 'S') {
        save('drawing.png')
    }
}

/*
P5LIVE - Audio
If using outside P5LIVE, include p5live-audio.js
https://cdn.jsdelivr.net/gh/ffd8/P5LIVE/includes/utils/p5live-audio.js
*/

```

And including the keyboard I tried to to a sort of colour panel for the whole screen which didn't turn out the way I'd like it to have you can see the left and upper frames beign quite colourful while the rest is "just" yellow.

I tried using the map function which we got introduced quickly and I also saw it on the P5js tutorial videos.

![P5L_type_drawing_20260505152542](/Users/stash/Library/CloudStorage/OneDrive-Persönlich/03_DMI/4.

Semester/CO_Creative_Coding/documentation/week_2/P5L_type_drawing_20260505152542.png)

```

// {"P5LIVE":{"name":"type_drawing","mod":1777994742730}}

function setup() {
    createCanvas(windowWidth, windowHeight)
    map(mouseX, 0, windowWidth, 0, 255)
    map(mouseY, 0, windowHeight, 0, 255)
    textSize(80);
    fill(255);
    background(200);
}

function draw() {
    let red = mouseX
    let green = mouseY
    let blue = 100
    let moveX = sin(frameCount * .02) * 300

```

```

    let moveY = sin(frameCo
    Punt * .01) * 300
    strokeWeight(4)
    stroke(0);
    fill(red, green, blue);
    // text(key, width / 2 + moveX, height / 2 + moveY); // Draw at
coordinate (20,75)
    text(key, mouseX, mouseY)
}

```

Day 3

w. Andrea

Hydra introduction

combining

Tring out in hydra with different sources and

```

Day 3

w. Jasmin

working with text

trying something new with combining hydra with a previous created code P5

![Bildschirmfoto 2026-05-07 um 10.17.42](/Users/stash/Library/CloudStorage/OneDrive-Persönlich/03_DMI/4. Semester/CO_Creative_Coding/documentation/week_2/Bildschirmfoto 2026-05-07 um 10.17.42.png)

```

// sandbox - start
H.pixelDensity(2) // 2x = retina, set <= 1 if laggy

s0.initP5() // send p5 to hydra
P5.toggle(0) // optionally hide p5

src(s0)

    .modulate(noize(1.5, .5))
    .out()
// sandbox - end

let dimX = 453
let dimY = dimX
let num = 17
let reduction = dimX / num
let posX = 0
let posY = 0

function setup() {
    createCanvas(windowWidth, windowHeight)
    background(255, 255, 200)
    rectMode(CENTER)

```

```

angleMode(DEGREES)
posX = width * 0.5
posY = height * 0.5
setupAudio(true) // global vars
// a5.ease = .075 // set easing

}

function draw() {
  /* audio vars: amp, ampEase, fft, fftEase, waveform, waveformEase */
  updateAudio()
  background(100, 100, 255)
  noFill()
  strokeWeight(2)
  stroke(0)
  let count = 20
  for(let i = 0; i < count; i++) {
    let dimension = width / count
    let posX = dimension / 2 + (i * dimension)
    for(let j = 0; j < count; j++) {
      let posY = dimension / 2 + (j * dimension)
      tmcs(posX, posY, dimension, 10, 400)

    }

  }

}

}

```

```

// this function draws squares at position
// posX and posY, and they move randomly
// a tiny bit
function tmcs(x, y, dim, num, speed) {

  let dimension = dim + sin(frameCount * speed * 10)
  //num = 10
  reduction = dimension / num

  for(let i = 0; i < num; i++) {
    let offsetX = random(7)
    let offsetY = random(7)
    stroke(255, 0, 255)
  }
}

```

```

        strokeWeight(3)
        square(
            x + offsetX,
            y + offsetY,
            (dimension) - (reduction * i)
        )
    }
}

```

creating Text and playing around with the position and the way of reading it

![P5L_new_002_20260507112828](/Users/stash/Library/CloudStorage/OneDrive-Persönlich/03_DMI/4.Semester/CO_Creative_Coding/documentation/week_2/P5L_new_002_20260507112828.png)

```

function setup() {
